City Manager Squyres advised that the bridges on the East side of the city, the two bridges on Market Street, starting the first week of June

they would be under repair, they were going to tear them down and replace them starting with the one on the South side so for the next six months we were going to have two lanes of traffic on a very small bridge instead of a two lane bridge, that they did wait until school was out so that the buses and parents right now would not have to deal with that but when they go back and forth but in September they would have too so if you were going to have to go across those bridges to allow yourself a little for time or just jump over to the freeway and go that way.

He called attention to all of the construction we had going on, that we all watched the police station going up and that was great to see, that we had received the preliminary fire stations drawings yesterday and tomorrow we get the preliminary drawing for the pool so that was nice to see and they would be finalizing the constructions drawing and both of those projects would get going soon. Some of the other people she recognized for their dedication and hard work on the project were Ms. Diane Peacock, Michael Howard, DJ Hatley, Victoria Tauzin and her mother Charlotte Bean, who was 85 years old, Patricia Nagel and Shelia Rutherford, Gregg Robinson, Eric Jones, numerous city workers, Chief Ayala and his wonderful officers, Jordan Davis, Nancy Gammage and she had many more names but her time was up but thanks to the efforts and hard work of those named and many others she would like to report that they made \$7,311.36.**

6. Former Mayor Allan Jamail to commend Public Works Director Kyle Reed and to recognize Public Works Appreciation Month.

Mr. Jamail stated that he was honored to be able to come up here again to address the citizens and the administration, he wanted to thank each of them for the service they were giving to the community, we live in an exceptional good city and if they would notice in the newspaper, a day of good works, that was an article that he wrote of events that was in just one day and he also submitted the work that the Jacinto City Dog Pound Rescue Organization did that same day but he was not the one that make the choice of what goes in the paper and they didn't have enough room so they got left out but he was going to take a group picture after the meeting and get it in this next week.

He stated that he wanted to thank each of them, that he had been up here thanking the Fire Department, the Police Department and he usually tries to thank everybody because he thinks he is really blessed to live in the city and if you look at the day of good works, that is just one day of things that this city did on that one day. He stated we had a City Manager that brought

his family out that day and they did volunteer service we had a remarkable City Administration and City Staff but tonight he wanted to speak specifically about the Public Works Department, that when he was first elected in 1973 the Public Works employees and that department had a tin building that was hot in the summer time and cold in the winter time and he was happy to say that our city has progressed and we now have a more modern facility. He stated that he had seen the city progress and he had seen public works progress, when we call the police they come and when we call the fire department they come but you know when we turn on the water faucet we get water instantly 7/24 and we could not get that if it wasn't for Public Works, that we have police and fire that is on call 7/24 and so is public works, we call them out in the winter time when we are in our warm homes and they get out and get in these ditches to fix water leaks, to unstop sewer lines in freezing and raining weather but they put on slicker suits and get out there and do the work and they need to be recognized. He stated this was National Public Works Recognition Month and he wanted to bring that to the attention of the city and the citizens how much these people do for our community, we take it for granted, we drive on these streets, we turn on our water, we flush our toilets and everything works and if it don't work we are upset but they get a call and Kyle Reed, the Director of Public Works, has a program and plan that is administered under the City Manager and they go to work. He stated that Public Works was overlooked a lot times but we needed to start paying more appreciation to them and tonight he would like Kyle Reed to come forward he presented him with a plaque of appreciation and advised that today was also his birthday and ask everyone to join them for cake and punch after the meeting.

Kyle stated that in his 21 years of service this was his first time at this podium and he thanked Mr. Jamail and the Keep Jacinto City Clean Committee, stating that we have always tried to do the best that they could for the city, they want to keep it clean

and be proud of it and they were. He stated that he didn't live in Jacinto city but if he ever moved from Crosby he would certainly consider JC to be the place for him and his family, he felt safe here, we had a good police protection, a good fire department and good administration and good people, he was amazed that so many people from here in JC volunteer to help with the Dog Pound Rescue. He stated that we did have some public works guys here, that he invited them all but it had been a pretty tough day and he ask the public works workers to stand up and be recognized.

PUBLIC COMMENTS:

Chief Ayala stated that he just wanted to say something concerning the Public Works Division and the Public Works Director and over all the years he had been here he remembers the Public Works Director and his staff, you know that we are talking about a public safety issue, year around during the hurricane season and during the times of flooding they are always out there 24 hours a day and they are there to make it more convenient for everyone in this community and he remembers many a time when they were out there and also during the parade and various events they assist us with crowd control, removing trees that have fallen and are threatening the citizens of the community but they are always out here around

the clock and he just wanted to extend congratulations to Mr. Reed and his workers for the fine job they do.

Mr. Allan Jamail stated that he had another individual that he wanted to recognize tonight and this was a young man that had done an astonishing thing and accomplishment and he thought he should be recognized and at this time he was going to ask Salvador Flores and his mother Norma to stand. He stated that this young man, at a very young age at a middle school in Galena Park decided that he wanted to play a saxophone and he worked hard at it, he practiced all the time and when he got into high school he decided that he wanted to submit an application of his talents to an organization to where he might could win some type of recognition so he submitted a solo saxophone performance to National Young Arts Association and they reviewed it and they selected him with 700 other people in the United States to go to Miami, Florida this last January and with limited funds he made the trip, this was an example of what people can do if they just put some effort into it. He stated that he performed down there and the United States Scholar Foundation, that only recognizes 161 students in the United States of America so he performed along with the other 699 and they reviewed it and after several weeks and also in Florida they interviewed him, they had to make sure this was him and that he really knew his stuff and so he was selected two weeks ago and he was one of the 161 United States Presidential Scholar in the United States of America.

Mr. Jamail stated that he has now been selected for a full scholarship \$65,000 annually from the University of Michigan where he will be going to study music of course and his desire is to be a professor there at the University and to also be a professional musician for a career so this young man needs to be recognized and he is recognized tonight, our Mayor and Council recognizes him and Keep Jacinto Clean does.

He stated that his community members and all of them had provided him with lot of inspiration just now with all the work they do with the dog pound and the public works and he thank them for inspiration.
