

City of Jacinto City

Job#19-2020-01

City of Jacinto City is proposing the removal/replacement of approximately 1500 yds.² of concrete roadway in Jacinto Oaks Subdivision. This project is in various locations in this subdivision and will require traffic control personnel and proper signage. The roadway construction will be completed by removing no more than half the roadway (1 lane of traffic) at any time. The intersections can be shut down but notices to our residents in these areas will be put on each home within 3 blocks of the job sights.

City of Jacinto City Bid Sheet

Project #19-2020-01

Jacinto Oates Street repair-removal-replacement-concrete.
This project will require insurance and bonding for roadways
and must meet Harris County specifications.

Special Conditions Explanation:

1. Traffic control- We will not block thru traffic or access to any resident. The intent is to construct one half width of roadway at a time. Contractor must provide proper signage, and flag personnel at all times. Should Police Officer be necessary, Jacinto City Police Officers must be used. No exceptions.
2. All driveways must be sawcut before concrete demolition for proper final fit to new concrete road. This is incidental to concrete replacement.
3. All concrete pavement must meet Harris County specifications and is to be paid by the square yard. A copy of the concrete tickets to be given to Jacinto City inspector daily.
