She stated that we were very blessed to have no injuries or flooding but we did have quite a bit of damage but like Channel 2 reported on the news, Jacinto City works together and she hopes that Jacinto City stays that way. She discussed the street that received damages and thanked everyone for working together.

Mayor Nunez advised that on Wednesday she had the honor to introduce Commissioner Morman at the opening of the new library; he was a very gracious and good person and believes in helping us and if you see people working on Mercury, that is his project, 1.6 million dollars to repair the streets and she went over some of the street that would be included in the repairs and that the repairs would not be in just one area but all over the city. He stated that they had the proposal in front of them from our engineer. He advised that this round was over one million dollars and the cost of the design was \$46,000.00 and he recommended that the proposal be approved.

Council Member Garcia stated she put this on the agenda to see if maybe the Council could agree to have a workshop later to just discuss service awards for past and present elected officials and employees, that we have many employees that have been working in the city for such a long time and it would be nice to sit and discuss what kind of service awards we could do.

Mayor Nunez stated this was a good idea and we had a work shop coming up to discuss appointing alternates to committees and we could discuss this at the same time and if any other Council Member had something to let her know and it could be discussed as well.

Council Member Garcia stated there was one thing, that last year they had the summer programs; classes offered to the citizens and parents about the different ways the government works and they had sewer classes, water classes, etc. and she would like to repeat this but this time bring in different topics on things we want people to know.

Mayor Nunez advised that we could discuss this in the workshop as well.

She advised that the child had crawled upon the couch, pulled a pillow over himself and gone to sleep.

City Manager Maner stated the child was the grandson of a former resident and former police officer, Randy Chastain.

Jim Moore stated that he was going to be nice but he wanted to thank the citizens out here first because he gave 10 ½ or 11 years of everything he had out here and he wanted to tell them he appreciated it that there was an awful lot of knowledge that he had and he gave out through all of the employees and he appreciated working with the citizens out there, they were the one that deserved everything that was happening in this city right now. He stated that he did want to leave this with the council and this would be his last time coming up here for a while and he was sure that would make them feel good but he did want to leave this with the council, that he would be back for the last stand and he would like to say this to them, he gave them several things in the charter that were being violated and in the manual and now that he hasn't heard anything being addressed about it, he was going outside the city with this. He stated he loved keeping it inside the city but he saw, at this point and time, he couldn't do it so he was going to have to go outside. He thanked them very much and that he appreciated working here.

Ms. Hazel Buck with Scout Troop 1301 advised that the troop did not have a sponsor and that they had one fund raising event each year which was selling coupon books, she discussed some of the coupons that were in the book and advised that the books sold for \$10.00 and the troop keeps \$4.00 from each book and that was their budget for the year. Ms. Buck stated that her son Clarence has been with the same troop for 43 years and she would be finishing 40 years in September. She introduced the two scouts with her and stated they would appreciate any help they could give them by buying the books.

Ms. Buck went over all the projects the scout troop participated in and stated she would have to check their schedule to see if they were free at that time.

City Manager advised that Ms. Buck's son Clarence was an employee of the city years ago.
